

Start your veterinarian career at Basic Vets!

Basic Vets is a large clinic group based in the Netherlands with the focus on companion animals. With 7 locations in the region of Dordrecht and Rotterdam and rapidly growing to 15+ locations, we are becoming one of the major companion animal clinic groups in the Netherlands.

Our team of vets consist at this moment of 14 veterinarians ranging from 30+ years' experience to new graduates. We offer 95% of all veterinarian services, surgeries and revalidation programs to companion animals with the help of all modern veterinarian diagnostics equipment.

We run our own emergency and trauma service centre that helps and treats animals round the clock, every day of the year.

Our unique approach, unique products as well as unique internal educational programs and full commitment and dedication to the health of companion animals of our staff makes us the most successful and rapidly growing companion clinic of the Netherlands.

For this growth we are looking for new veterinarian talent that want to put their education into practise. As a newly graduated vet you will complete a full traineeship from 18 to 24 months. During this period, you will be trained to be a full-fledged first-line veterinarian and you can "tag along" at our specialist centres: Basic Vets Hospitals in Dordrecht and Sliedrecht and Rotterdam, in order to gain insight into second-line care. We invest in your personal and professional development as a veterinarian in the form of internal and external training days. Experienced veterinarians, certified assistants and the management team with at least 10 years' experience in veterinary care will guide you in both medical and customer contact and care. After your internship, you can continue to get trained in your specialization of choice and / or what is currently needed in Basic Vets Group Netherlands. Do you enjoy daily contact with customers at one of our Clinics? Then you can choose to continue your career at a Basic Vets Clinics. Is your ambition to grow out to be a specialist surgeon? Then you can enter the career opportunities in the Basic Vets Hospitals. There are also opportunities to enter the commercial and operational management process after the traineeship if there are opportunities available. During your first 18-24 months, you can run your services at multiple Clinics offices, striving for you to do this independently, with great freedom and responsibility, in partnership with a team of assistants. Our terms of employment are market-based, giving a good setting, commitment and performance. We have the ambition and goal to expand in the larger cities of the Netherlands in short term, therefore you are literally growing with our company! Did we get your interested?

Important to know:

- Housing will be arranged
- Language skills must include English and the commitment to learn Dutch in the shortest time (courses will be made available).

Are you that new veterinarian talent? Do you have the ambition to grow out to be the next high classed surgeon? Do you have a true passion for companion animals and can you work in a team as well as independent? Then we are looking for you! Write your motivation letter and CV (English) to: info@basicvets.nl in attention to HRM – veterinarian. In the meantime you can take a look at our website www.basicvets.nl

We are looking forward to hearing from you!
