Dear students,

Some time ago you came to Iași and you entrusted the dream of your youth and the professional training in our hands - the academic staff of the Faculty of Veterinary Medicine.

In these difficult times for all of us, when the international epidemiological situation temporarily deflects us from our purpose, rest assured that our thinking is also directed towards you. Despite all the vicissitudes, life goes on, that is why I ask you to continue preparing, studying, learning, trusting your teachers and we will overcome this atypical university year in optimal conditions.

Be brave! Don't panic! Fear is not a trait of strong characters or youth!

We will take care of you, we will take care of your education. No one will be left behind. Me and my colleagues will organize our daily schedules in such a way that as soon as the general conditions allow, we will resume the teaching activity and proceed in sustaining all the regular examinations. Please feel free to contact us if you have any problem or if you experience any difficulties in processing and understanding the information we gave you on Moodle learning platform or by email.

Take care of yourself and your families! Don’t forget – A positive attitude is good for your health and also helps you to better cope with any kind of difficulties!

I wish you all the best during this crazy period and I’m looking forward to meeting you soon,

Professor Mihai MAREȘ
Dean
