

## Sprijin financiar SAPARD pentru investiții în exploatații agricole

Irina TUDOSE, O. VOLF, Liliana CORDUNEANU - Agenția SAPARD, Biroul Regional 1 Nord –  
Est Iași  
T. ROBU - USAMV Iași

The dispersion and division of agricultural areas, the lack of organization, the insufficient technical endowment while the present one is technologically old fashioned, the lack of qualified personnel and specialists, the direct active people is grown old, these are some of the reasons which impose a new nature of the agricultural exploitations development. In this respect SAPARD Programme due to the measure „Investments in Agricultural Exploitations” give financial and not repayable supports for the modernization of the exploitation from the vegetal field, the modernization and/or the setting up of fruit growing and wine growing plantation and big crops, the acquisition of high genetic potential animals, the endowment with installations and equipments to make the works from the growing animals farms. The putting into practice of the measure will have, as result high quality products which will contribute to the implementation of the community acquis and the same time, will contribute to the setting up of new jobs.
