

Baza de date pentru gestiunea sistemelor de irigații

M. ANASTASOAEI - Universitatea Tehnică "Gh. Asachi" Iași
Cornelia BALACEANU, C. BALACEANU - I.C.I.T.I.D. Baneasa, Giurgiu

For an accurately and easily management of an irrigation system, a database was developed. It contains information about climate components, soils and water quality, hydrology components, and scheduling irrigation. The database is computer-implemented and can be accessed on Intranet or Internet.
