

## Regimul juridic al bunurilor agricole concesionate

Filip C. - USAMV Iași

The work emphasise the main legal aspects which reglements the legal regime of concessional agricultural gods, taking into accounts the current legal acts. Also, in the paper are presented some propositions of „lege ferenda“, which are should be and forced in in the future for participating, by priority, of the agronomist to the concessions of the agricultural goods, meinly of the fields with agricultural destination.
