

Agricultura județului Bacău la cumpăna dintre milenii

CIUREA I., BREZULEANU S., MORARU R. - USAMV Iași
BURLUI Gh. - D.G.A. Bacău

After 1990, the agricultural branches, more than other branches of the national economy, have undergone important changes especially as regard the patrimony and the structure. Such changes also took place in the agriculture of Bacău District which has specific characteristics due to the relief variety. The authors of the study aim at diagnosing the present situation of the agriculture of the district and identifying the development strategies.
