

Considerații privind activitățile agroturistice în landul Baden –Württemberg Germania

BREZULEANU S. - USAMV Iași
BRAD I. - USAMVB Timișoara

Agri-tourism is an activity with very old traditions in Germany and specially in Baden-Wurttemberg Land. Paper work proposes it self to evidence the role of agri-tourism for farmers of the three regions of the Land, by means of utilisation of natural and agricultural resources. It is presented the way of classification and agreeing of agri-tourism pensions, and the advantages of these activity as a modality of diversification of economical structures from rural space.
