Teodor ROBU – USAMV Iasi

After december 1989 the Romanian economy receive in certain amounts financial assistance , grants from different external funds and Programs. Those funds have been directed also in agriculture domains through Programs such as PHARE, ISPA, SPP etc. The most significant UE Program for Agriculture and Rural Development in Romania is The SAPARD Program. The amount of investment will be approximately 300,000 EU annually for 7 years. The paper revealed the main domains of agriculture which will benefit from the SAPARD funds.
