

Quelques aspects concernant l'évolution du marché de lait et des principaux produits laitiers dans les pays de l'Union Européenne

Adina-Elena CIOBOTARU, Elena GÎNDU, A. CHIRAN, Cornelia MURARIU – USAMV Iasi

The integration of the Romanian agriculture in the European Union suppose the adaptation and the alignment at the market politics concerning the milk and main dairy products from the the countries of the European Union. Leaving from this desideratum, the authors emphasize the tendencies of the market of milk and main dairy products in the countries of the European Union on the basis of a bibliographical study.
