

PREVIZIUNEA ECONOMICĂ - CURENTE ȘI TENDINȚE ECONOMIC FORECAST - CURRENT AND TRENDS

Daniela NEONILA MARDIROS - Universitatea "Al. I. Cuza" Iași

For the human nature it seems that the knowledge of the past and present situation of one phenomenon it is not enough, being very important it's future behavior. For that purpose, the one who want to survive in the competition medium must use some methods and techniques of prevision. During the time, a several school with this purpose appears and was known as American school, European school and Japanese school.
