

IDIOMATIC EXPRESSIONS AND WAYS OF TEACHING  
THEM IN ACADEMIC DISCOURSE  
Expresii idiomatice și modalități de predare a acestora în discursul academic

MIHALACHE ROXANA - USAMV Iasi

Idioms play an important role in spoken and written academic discourse, and often present a particular problem for non-native students; not only because they involve metaphors and multi-word units, but also because of the indirect and implied meanings and functions they convey. Learning idioms improve the learners' ability to read in the target language and to understand colloquial conversation. The paper deals with specific problem of idiomatic expressions and some possible approaches of ways of teaching them.
