The ground criterion for the development of Dolj County will be the quality one. In order to put in a good light the Dolj vineyards it must be applied the key principle of sustainability. On two main directions the Dolj county could develop in future: red wine, and table grapes production in a first place, flavored white wine grapes in second place and last but not at least grapes for distillated vines in tight regions like Banu Mărăcine and Segarcea. Strategia de dezvoltare pleacă și se bazează pe deoparte pe potențialul
