

## PLANTS FROM APIACEAE'S FAMILY USED IN THE ROMANIAN FOLKLORE PLANTE DIN FAMILIA APIACEAE'S FOLOSITE IN FOLCLORUL ROMANESC

STRATU Anisoara - Universitatea "Al.I.Cuza", Iasi

In this paper we present some mythical Apiaceae species, which existence have been in a tight relation with human beings. Their use in the traditional folklore could be correlated with their chemical composition and therapeutical properties.

Legends, believes and tradition highlight the rich Romanian botanical folklore, and they reflect strong relation between the inhabitants of our villages and the Carpathian-Danubian-Pontic environments.
