

The communitary grain market and the situation of the romanian grain sector

FANITA Georgeta - University of Craiova
GIURESCU E. V. - S.C.D. Șimnic

The authors are relevantly analyzing the grain market, presenting conclusive data for the period 1995-2004. These data refer to: the areas cultivated with different grain species, the yield/ha, production structure, the prices for different grain species. The data have been analyzed in the context of Romania's integration in the communitary structure. Meantime, there are presented the causes and tendencies of grain producing countries. That should influence the future production.
