

Formarea unei atitudini ecologice in contextul educatiei pentru dezvoltare durabila

Carmen-Catalina IOAN, B. HORBANIUC, Gh. DUMITRASCU - Universitatea Tehnică "Gh. Asachi" Iași

The students' education for sustainable development (ESD) represents a fundamental requirement since nowadays the stress the environment is subjected to became intolerable. The efforts that are done at global level in educating citizens are focused on developing an ecological attitude as a component of a sustainable mentality. In this context, we have developed an ESD training toolkit addressed to students which is presented in the paper.
