

## Productia de porumb pentru boabe obtinuta pe haldele de steril de la Husnicioara sub influenta unor fertilizanti organici de tipul composturilor

C. ROSCULETE, R. MOCANU, Ana-Maria DODOCIOIU, Elena ROSCULETE - Universitatea din  
Craiova

The paper presents the corn yields on the steril dumps from Husnicioara under the influence of several fertilisers as composts. The trials were focused on the establishment of the most suitable means for supplying with nutrients in steril dumps conditions in order to gain constant corn yield with less expenses.
