

Unele observatii privind primul dictionar roman - german de economie agrara

Simona Catrinel AVARVAREI - USAMV Iasi

After the publication in 2001 of the German-Romanian Dictionary of Agricultural Economy, drafted by Maria and Radu Moraru, the publication of a Romanian-German replica signed by the same authors was something that was expected. This editorial event goes further beyond its connotations, since it covers an area that is, unfortunately, insufficiently represented by the rest of the agriculturally oriented dictionaries.
