Timis county agricultural potential plays an important role in national economy, with crucial implications on the living standards of population and food security. The agricultural potential of Timis county is remarkable because of the large agricultural plains areas and high quality soil. Although it is currently subvalorificat, in the future can become one of the most important branches of Timis County economy as it was not long time ago.

Currently, the agriculture in Timis county is characterized by a very strong dual structure of exploitation agricultural area, on the one hand a large number of small individual farms (87 768), but operating 48,8% of the county area, on the other hand, a relatively small number of farms but large (706), using over half the agricultural area of the county (51.2%). All these elements allow us to perform an analysis of Timis County agriculture, which must acquire a special importance in developing county economy, but also the national economy.
