Subject: RE: Erasmus agreement renewal

Dear Professor,

Greetings from the International Relations Office! We gladly confirm the extension of our Erasmus+ Inter-Institutional Agreement. Unfortunately, for now, we have some difficulties in creating IIAs with many of our partner institutions through EWP. We are looking forward to renewing our agreement in the EWP system when it is finally up and running smoothly.

Thank you for your cooperation.

Best regards,
Rukiye Budak

Subject: RE: Erasmus agreement renewal

Dear Colleague,

I did not receive any answer from the International Relations Office.

In the meantime I understand that, due to the fact that the EWP platform isn't operational yet, **"All Erasmus+ Inter-institutional Agreements can be extended via email for 2022-2023 academic year without the need of having them renewed"**.

Maybe your office could take this into consideration?

I attached to this message the previous agreement.

Thank you for your assistance.

Best regards!

Subject: RE: Erasmus agreement renewal

Dear Prof. PhD Roşca Radu,

Thanks for your e-mail.

I would be pleased to have an agreement between our universities.

I have forwarded your inquiry to our international office,

I guess they will contact at you soon.

Please do not hesitate to contact at me as well.

Thanks again for your kind approach

Regadrs

Subject: Erasmus agreement renewal

Dear Colleague,

First of all let me wish you a Normal and Happy New Year!

I hope you are OK.

I am the contact person for the

I am the contact person for the inter-institutional agreement between our universities, which has ended in the

academic year 2020-2021; so, I prepared a new draft agreement, which is attached to this message. If you agree with

the renewal, please complete the up-to-date details for Akdeniz university.

Our Erasmus officer will probably start the activity for the completion of agreements via EWP (Erasmus without paper) Programme, but I do not know when; anyway, I do not have the necessary credentials to do this.

Best regards!

Sincerely yours,

Prof. PhD Roșca Radu (rrosca.tripod.com)
