

Dear colleagues from Erasmus+ partner institutions,

Since our Erasmus+ application and admission procedure depends mainly on communication via emails, we would kindly like to inform you that we are having troubles sending email to Hotmail/Outlook.com email accounts. It means there is a high chance an email from University of Maribor will not get delivered to recipient's Hotmail/Outlook.com mailbox (not even to Spam/Junk folder). It is not specific issue of our institution, it is a »filter feature« of Hotmail/Outlook.com and we are not even being informed about the unsuccessful delivery.

In case students from your universities are coming for Erasmus exchange to the University of Maribor in the next academic year (nominated or not), please advise them to use some other email account other than Hotmail/Outlook.com account in communication with the University of Maribor. Otherwise, they might miss important information regarding their mobility here.

If you have any further questions, don't hesitate to contact us.

Best regards!

Eva Škruba, prof.
