

Economic-financial supporting mechanisms and tools in the agriculture of Botoșani county

Călin-Lucian BÎZU - A.P.I.A. Botosani
Aurel CHIRAN - USAMV Iasi

At present, the development of the agriculture of Botoșani County will stand on the economic-financial aid realized by appropriate mechanisms and tools in keeping with the laws in force. The economic-financial aid for the vegetal production covered the seeds, the fertilizers and the pesticides according to the Government Emergency Decree nr.65/2006 and consisted in delivery of 10080 value tickets. The European Union financial support consisted also of direct payments reported on surface, as well as national complementary payments. The economic-financial aid aimed at the animal breeding sector and providing services. The authors present also the mechanisms of forming the prices and rates. They emphasized the supporting of farmers through these mechanisms.
