Dear Ms. Sonja Thielemann,

Thank you for your email and for your intention of continuing our fruitful collaboration. Based on our past cooperation and according to the recommendations of the European Commission, we would like to confirm our wish of extending the validity of our interinstitutional agreement for one more academic year, until the EWP is fully functional.

Best regards,

--

Dear Partner,

Greetings from Geisenheim University.

We are contacting you with regard to the renewal of our Erasmus IIA for the new Erasmus program. Given the circumstances that the Erasmus dashboard is still in the developing process, we therefore would like to propose that you consider our current IIA and the exchange conditions still valid for 2022/2023. As soon as the dashboard will be fully working, we would be able to renew the Erasmus+ IIA between our institutions for the new Erasmus generation 2021-2027 and start the digital signing process.

If you want to suggest any **changes or amendments** to the current agreement (eg. number of mobilities, mobility types, study cycles or cancellation), please, send us a short notification **by 31st of March**. In case we do not hear from you, please allow us to consider this as a tacit consent to proceed with the renewal of our IIA for the academic year 2022-23.

We are looking forward to continuing our fruitful cooperation.

Best regards,

Sonja Thielemann
