

Hello,

Let me contact you because we are currently 2 vets and we want to strengthen our team with a young motivated veterinarian.

Our activities are mainly rural: 95% beef (meat 70% Dairy 25%), 5% other activities. Caesarean, calving, prophylaxis, followed by reproduction, etc

The clientele small pets is to develop.

The use that we propose requires physical force that is more consistent with that of a man.

We live in the south of Belgium and speak French.
