

Position Title - Tree Physiology Research Assistant

Description

The incumbent will perform a wide range of duties including field work, pesticide spray, field-based physiological measurements, laboratory analysis, assessments of fruit yield and quality. Other required activities include data entry, summary, statistical analysis, and preparation of figures and reports.

Requirements

Bachelor's degree in a relevant field of study or equivalent related field experience is required. Any combination of education and experience may be substituted on a year-for-year basis.
